

3 → 6

KINDERGARTEN

Activities for kindergarten children help – through play and interaction with the exhibitions – the development of observation skills and storytelling: children discover the stories that the artworks reveal.

JUMP ON AN ADVENTURE

Punta della Dogana | 2 hours | Fee: 95€

Kids meet a selection of artworks and different creative languages. They are then invited to experiment these languages through actions, drawings and narration.

STRIPS AND STORIES

Palazzo Grassi | 2 hours | Fee: 95€

A stroll among the artworks precedes the hands-on activity: children work – inspired by Luc Tuymans – on the reconstruction of details that belong to larger images: fruits, trees, mountains.

INFO

Palazzo Grassi

Campo San Samuele 3231, Venice

Punta della Dogana

Dorsoduro 2, Venice

www.palazzograssi.it

Open from 10.00 to 19.00

Closed Tuesdays

Last entrance at 18.00

Booking and information

- free for three people accompanying of a school group of 25 to 29 students
- free for support teachers or those accompanying disabled students

All tours are available in Italian, English, French, Spanish and Italian Sign Language.

6 → 11

PRIMARY SCHOOL

Activities addressing primary schools tackle different issues depending on the exhibition : at Palazzo Grassi, the visit is based on an approach across the curriculum, connecting art, history and sciences; at Punta della Dogana, children work on personal emotions and on relations with their peers.

A BOOK, AN ADVENTURE

Punta della Dogana | 2 hours | fee: 95€

What are the different ways artists choose for self representation? There are very many examples at Punta, we go through them and try to understand the choices: we will then make a group portrait!

LOOK INTO MY EYES

Palazzo Grassi | 2 hours | fee: 95€

Taking a stroll in Albert Olhen's tree paintings, we imagine and build up dreamlike scenarios, which we then inhabit with made-up characters and real emotions.

DOGANA DA MAR: THE MERCHANTS OF VENICE

Punta della Dogana | 2 hours | fee: 95€

A geographical and historical treasure hunt in the glorious past of the Maritime Republic of Venice. Ships and merchants, spices and precious goods are the thread that leads from the Punta della Dogana, one of the major landmarks of Venice, to the shores of the Mediterranean and all the way to the Far East. Be a contemporary Marco Polo and get ready to travel!

11 → 14

SECONDARY SCHOOL, FIRST GRADE (JUNIOR HIGH)

Teens can seize the opportunity of living the museum as a set where to share their points of view and their opinions on contemporary world.

LUOGO E SEGNI

Punta della Dogana | 2 hours | 120€

The guided tour is conceived as a journey into the artistic production of thirty-six contemporary artists, each resulting from a specific cultural, social, historical and economical background. The students discover the world the artists come from, together with their language, techniques and media.

LA PELLE. LUC TUYMANS

Palazzo Grassi | 2 hours | 120€

Luc Tuymans' approach to painting seems traditional: oil on canvas. But taking a closer look, one discovers that these paintings reproduce details of larger images, unusually framed. Viewers are challenged in watching reality from an unfamiliar perspective: kids are asked to take the same approach on a selection of images.

CLIL | CONTENT AND LANGUAGE INTEGRATED LEARNING

Punta della Dogana/Palazzo Grassi | 2 hours | 120€

While visiting the exhibition and discovering contemporary art, students put to use their knowledge and push the limits of their language skills, in an informal way. It is the perfect chance for challenging one's own communication skills and expanding one's lexicon. CLIL can be held in English, French, Spanish and Italian.

AMONGST OURSELVES: CURATORS FOR A DAY

Punta della Dogana/Palazzo Grassi | 2 hours | 120€

Amongst Ourselves is an interactive, peer-to-peer visit that helps develop young people's critical and observational skills. Focusing on a selection of key themes from the exhibitions – such as self-representation, politics, the passing of time, balance and rules – the class conceives of alternatives to the exhibitions and develops self-led visits.
