PRIMARY SCHOOL

Activities addressing primary schools tackle different issues depending on the exhibition : at Palazzo Grassi, the visit is based on an approach across the curriculum, connecting art, history and sciences; at Punta della Dogana, children work on personal emotions and on relations with their peers.

A BOOK, AN ADVENTURE

Punta della Dogana | 2 hours | fee: 95€

What are the different ways artists choose for self representation? There are very many examples at Punta, we go through them and try to understand the choices: we will then make a group portrait!

LOOK INTO MY EYES

Palazzo Grassi | 2 hours | fee: 95€

Taking a stroll in Albert Olhen's tree paintings, we imagine and build up dreamlike scenarios, which we then inhabit with made-up characters and real emotions.

DOGANA DA MAR: THE MERCHANTS OF VENICE

Punta della Dogana | 2 hours | fee: 95€

A geographical and historical treasure hunt in the glorious past of the Maritime Republic of Venice. Ships and merchants, spices and precious goods are the thread that leads from the Punta della Dogana, one of the major landmarks of Venice, to the shores of the Mediterranean and all the way to the Far East. Be a contemporary Marco Polo and get ready to travel!
